

ADAM UP GAMES: The Rainbow Race

ADAM UP GAMES: The Rainbow Race

Skill: Counting to 10

Players: 2-4

Equipment: Game board, one dice (if playing with 2 players)

Mission: Who can get to the end of the rainbow first?

How to play: 3 or 4 players

1. Every player points 1, 2 or 3 fingers behind their backs.
2. They count to 3 and all place their hands in front.
3. Players move forward the number of fingers they have as long as no one else has the same numbers as them.

For example, if a player has 2 fingers pointed and no one else has, they move forward 2 spaces. If someone else has 2 fingers pointed, they do not move.

How to play: 2 players

1. Players take it in turns to roll a dice.
2. If they land on 1, 2 or 3, they move forward that number of spaces. If they roll a 4, 5 or 6 they move back 1 space.
