

# Robot Maths - Rounding to the nearest whole number

**Example:** Round this number to the nearest whole number

1) *Underline* the digit in the '*ones*' place

2) Put a *circle* around the digit in the '*tenths*' place

**Yes**

*Is the digit in the 'tenths' place less than 5?*

**No**

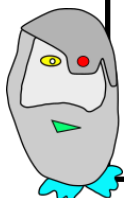

3) The '*ones*' digit **stays the same** and everything else goes

3) The '*ones*' digit **moves up by one** and everything else goes.

4) Make your final answer clear using a full sentence

\_\_\_\_\_ rounded to the nearest whole number is \_\_\_\_\_ .
