Robot Maths - Averages (median)

Example: Find the median of...

4cm, 8cm, 3cm, 6cm, 4cm

1) Put the numbers in order from smallest to largest

2) Circle the middle number(s)
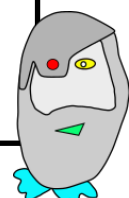

How many middle numbers are there?

1

2

This is the **median**

Add the two middle numbers and then divide by 2

3) Make your final answer clear using a full sentence, including the correct unit of measure

The median is

Robot Maths - Averages (median)

Example: Find the median of...

4cm, 8cm, 3cm, 6cm

1) Put the numbers in order from smallest to largest
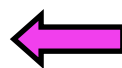

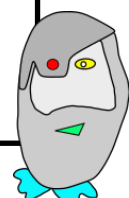

2) Circle the middle number(s)

1

How many middle numbers are there?

2

Add the two middle numbers and then divide by 2

This is the **median**

3) Make your final answer clear using a full sentence, including the correct unit of measure

The median is

Robot Maths - Averages (median)

Example: Find the median of...

$\downarrow$

1) Put the numbers in order from smallest to largest

2) Circle the middle number(s)

$\downarrow$

1 $\downarrow$ *How many middle numbers are there?*   **2** $\downarrow$

This is the **median** $\leftarrow$ Add the two middle numbers and then divide by 2

$\downarrow$

3) Make your final answer clear using a full sentence, including the correct unit of measure

The median is
